

PAUL DENEUI MINISTRIES

“Strengthening The Saved - Saving The Lost”

June 2018

Dear Friends,

Life behind these doors is very different compared to the kind of life you and I experience every day of our lives. For one thing, they all need full time care for one reason or another. One thing that is common between us: we all need a savior to experience eternal life. His name is Jesus. Someone must go and tell. I am so honored to be one of the ones to go. The Lord said to me, "Go, strengthen the saved & save the lost."

Wagoner/Sallisaw

The looks that I saw on faces this morning reminded me of the first time I heard Jesus say, "Daughter your faith has made you whole." The very first time I realized if her faith could make her whole, then my faith could make me whole. It's a revelation that is a life changer. Residents and staff heard that message this morning and it was a life changer for them. Praise The Lord!

Tahlequah/Stilwell

Tahlequah

I'm starting to see more school kids in the nursing homes. School is out for the summer, so employees are bringing their kids to work. This morning I had kids in the service. I also had some little Pentecostal women who were ready to shout. It was a great morning. It reminded me of an old-time country church with everyone all in one service. One woman shouted out, "Go with Jesus or go to hell!" That is what I was ministering, but I didn't say it quite like that. We raised our hands and shouted a little bit

because we were so thankful we were saved!

Stilwell

There is something going on in the nursing homes. I am noticing an increase in attendance and interest. It's wonderful to see. This afternoon's service was bigger than I've seen for a while. Praise The Lord!

Tulsa/Pawnee

We are definitely growing. This morning was the largest group so far. There are so many people, whether in nursing homes or out of nursing homes, who want to hear some good news. You can't get any news "gooder" than Jesus Christ. He is the way. He is the truth. And He is the life.

Sapulpa/Stillwater

This morning was really good. Last month I was not able to come, so it's been 2 months since I've seen them. This facility is just newly opened within the last year. They have been going through the state certification process. Last week they passed their certifications. Now they have the ability to grow with more residents. (My congregation is growing.) We sang the wonderful hymns of the church, then looked at the story of the woman with the issue of blood. We all got excited when we discovered that it was OUR faith in Him that can heal us. It led to lots of discussion. Residents are being saved, healed, and set free. Now it's on to Stillwater.

I said, "What can wash away my sin?" They said, "Nothing but the blood of Jesus." I said, "What can make me whole again?" They said, "Nothing but the blood of Jesus." What a great way to start the morning! I was in a memory unit and we sang all the songs without the song sheets. Everyone did great. We had a room full of residents, but we also had spouses and staff.

I want to thank each and every one of you who help to make this ministry possible. The Lord spoke to me in 2009. He said there would be people, I call them "Life Senders", who would see the vision of this ministry and send Life into nursing care facilities through their prayers and financial giving. You are those people. Thank you for responding to the call.

Paul D. Miller
