

PAUL DENEUI MINISTRIES

"Strengthening The Saved & Saving The Lost"

February 2020

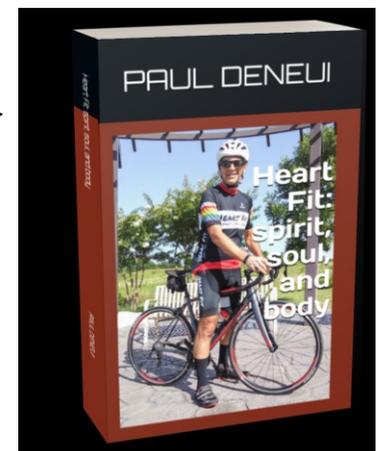

Dear friends, I sent out a letter last month explaining the vision for 2020. I am including a brief repeat of that vision in this newsletter plus updates for the month.

This is the year for **Laser Focus - 2020 Vision**. The Lord continues to show us how we can do more. On November 23, 2019 the Lord said, "Do more by doing less." At first that didn't make sense to me. Then I heard the explanation.

Do more of what I've called you to do by doing less of what I've not called you to do.

In other words "**Laser Focus on the call!**"

- 1 – Maintain the prayer perimeter within a 50 mile radius of Rhema for: Protection, Power, and Persistence for the Hagin family and the Rhema team.
- 2 – Minister in nursing and assisted care facilities within a 50 mile radius of Rhema.
- 3 – Minister in Children's Homes.
- 4 – Help Pastors and Churches.
From time to time I have had the opportunity to help both pastors and churches through some difficult/transition times. As these situations arise I will continue to make myself available.
- 5 – Write a book called "**Heart Fit: spirit, soul, and body**".
This book looks at our 3-part being – spirit, soul, and body. explains the concept of "Zone Training" for each part.
The Goal: Run your race and be the best "YOU" you can be.

- This book is now complete and available through Amazon.

Barnsdall - We started out February with a bang! Our first service we looked at the words of Jesus where he said, "I am the way, the truth, and the life." It's so good to know: 1) we never have to be lost again, 2) we can always know the truth, and 3) we can have life in this life and eternal life for all of eternity.

Then as I entered a McDonalds in Bartlesville, I saw a homeless woman sitting in a corner trying to stay warm. I asked her if she had had anything to eat. She said, "No". It just seemed like I should get her some food. She asked me if I had a limit. I smiled and said, "No, order whatever you want." She ordered a pancake breakfast and a big burrito. (I couldn't tell how old she was because she looked pretty rough. She could have been about my age.) There was no smile and no thanks but that's OK. The joy comes from being led of the Lord!

Muskogee

This morning everyone was very attentive. How did I know? I began to close the service with prayer while I was looking around. (You know the bible says, "watch and pray".) Every head in the room was down - residents, staff, and visitors. All work and visiting had stopped. When I finished praying several began to clap. I learned something. Everyone was listening. Some were not churchgoers. We were reaching the lost.

Broken Arrow

We had our largest group at this facility today. We are also using a larger list of hymns. Do you remember singing, "I've got the joy, joy, joy, joy down in my heart"? We sang that this morning and the looks on faces were amazing. It was like they were kids again. We are definitely having a good time in the nursing homes. Strengthening The Saved & Saving The Lost.

Expansion Day

This was a day to begin looking for special needs children's facilities. I have been ministering to adults with special needs for 10 years. It's time to add kids with special needs to the mix. Today I am praying, on the internet searching, and traveling the highways and byways of eastern Oklahoma. Yes Lord, let's do this!

(This bracelet made from fishing swivels is a constant reminder of Matthew 4:19 which says, "Follow Me and I will make you fishers of men!")

Thank you so much for your continued prayers and financial support.

A handwritten signature in blue ink that reads "Paul D. Newman".
