

PAUL DENEUI MINISTRIES

"Strengthening The Saved & Saving The Lost"

September 2020

Dear Friends,

Wednesday - Sep 9th

We were outside again today. Everyone was so excited to see each other again. The dynamics are a little different when you are outside and at the front door. The mailman came, family members came to pick up residents, etc. It all became part of the service. We all cheered and thanked the mailman for bringing their mail. I just mentioned that during these times it is so good to get information and love from the outside. They all agreed. We all sang about our wonderful Lord and Savior. Then we looked into the Word of God and saw

how many of the early believers followed their conscience. It is the voice of our spirit man. Many said we could have gone another hour. That's always so wonderful to hear. They are excited about the Word!

Thursday - Sep 10th

It is always such a joy to come to this facility. The residents and staff really honor the Word of God. Sometimes I think I walk away more blessed than they are. Today we lifted up the name of Jesus through some of the old favorite hymns: "Are You Washed in the Blood", "Jesus is the Sweetest Name I Know", "Oh the Blood of Jesus", etc. Then we looked into the Word and discovered some key points to be led by the Spirit of God. Oh, what a time!

Thursday - Sep 24th

We had another great service. The residents are more than ready to have visitors. We could look at each other through a doorway. I was outside, they were inside, but we were "together". I'm ready for the new normal to just become normal again.

I continue to travel Strengthening The Saved & Saving The Lost whenever and wherever I can.

Wednesday - Sep 30th

It was so good to see everyone again. We were outside at the front entrance and under the portico. The mailman came, Amazon came, UPS came, visitors came, and we welcomed them all. Residents want to see people. Most of the time when these people come, the residents are inside and never see them. They were waving at everyone who showed up. These types of interruptions I don't consider interruptions. Most of them were either singing with us or helping me preach. It was wonderful. We looked at the promises of God and realized we have a choice to make. We can say yes or we can say no to the promises. If you believe God is a good God, you will want to say yes. At the close of the service, we sang "Oh How I Love Jesus" and prayed a prayer of rededication. Praise the Lord! It was a wonderful day.

Another month has gone by. We continue to minister in nursing care facilities, the homeless, and pray for Rhema and the Rhema team throughout the world. Thank you for your support to continue this effort. We love you and pray for you daily.

Paul D. Miller
